Lunare Project

As part of the drafting of our station, part of the contents are dedicated to the dissemination and promotion of cultural activities in the territory in order to render a service to our users and continue the project placement our media. Arts and trend and beauty coexist in the project along with another dominant aspect, proceed directed towards an ethical thinking. A healthy way of life in which man, nature, inspirations, human relationships and social ones, can feel an integral and core of the project. It is important to stress that, in a historical moment by uncertain future as the one we are experiencing, in which the individual tends to isolate themselves because they commonly deprived of the right to dream, because daydreaming is now a pillar of nothing, it is very important to recognize the aim of Lunare Project to become a social collector. A clear mission that involves plasma-conscious users and sensitive. Transfers and generates opportunities for exchange, proposing a model of life adventurous and can with and for all its Lunareambassador, healthy carriers of beauty, dreams and hope. After years of only music, here you are the voice that tries to

look for a new consciousness. It does not consider people as an audience or as a mere listener nor as a number, Lunare Project considers the personal aspects, the unicity and the characteristics of everyone. *We will you feel the stars.*
