

LUNARE
PROJECT
TRIBUTE
kukai

Lunar project gives life to another collection of the series "tribute." Storytelling, location, passions, rituals and environments from a privileged point of view: music.

Kukai in the past ten years has managed to impulse to gather the impulses of a controversy and at the same time spectacular city, of its travelers that decided not to miss a Kukai experience. The philosophy, the mood and the great culture of welcoming were the values that Kukai dedicated to its audience, made of people who love "bon vivre" and good taste as well.

An experience day-to-day, collected in a compilation dedicated to those who contribute, with their sensitivity, to create beauty.

We will let you feel the stars.

Roberto Barone
