

Session

Open Satellite Data for Urban Policies on Natural Capital:

insights from the SPOTTED EU project

The event aims at raising awareness about the transformative potential of open data in urban sustainability, promoting collaboration among stakeholders, and inspiring actionable steps toward greener, more sustainable urban environments. It will also see the launch of the latest policy brief showcasing the impact of SPOTTED pilots on the integration of open data and AI for green area management in smart cities.

The session will kick off with a special presentation by **Francesco Mureddu**, senior director at the Lisbon Council and coordinator of the SPOTTED consortium. It will be followed by a presentation of the policy brief by **Anna Pizzamiglio**, research associate and project manager at the Lisbon Council. The presentation will be complemented by the more technical intervention of **Antonio Filograna**, senior researcher at Engineering Ingegneria Informatica spa, who is heavily involved in the development of the pilots. Lastly, **Marcella Bonanomi**, project manager for SPOTTED at the Comune di Milano, will give us insights on the benefits the City of Milan is reaping from their SPOTTED pilot.

CEF Spotted is a European project that involves, in addition to Milan, Naples, and Helsinki as pilot cities. It is based on the utilisation of satellite open data related to green spaces, which are used to implement a technological platform capable of supporting policymakers in making more appropriate decisions regarding green space management. The project is in an advanced phase, and the Municipality of Milan has given it a strong orientation towards addressing climate change. As a result, many of the KPIs that will emerge from the project will relate green spaces to other pillars of environmental sustainability. For example, efforts are being made to create synergies with sustainable mobility.

SPEAKERS

- Anna Pizzamiglio** research associate and project manager, the Lisbon Council
- Antonio Filograna** senior researcher Engineering Ingegneria Informatica spa
- Marcella Bonanomi** project manager for SPOTTED, Comune di Milano

SPECIAL SPOTTED PRESENTATION

- Francesco Mureddu** research associate and project manager, the Lisbon Council

INFO

Date and Time:

Monday, 9 October 2023
from 16.00 to 18.00

Location:

Palazzo Marino –
Sala Commissioni

[Register HERE](#)

Please note that the session will be recorded.
